

Watching Your First Video Podcast

1

1. Power up your iPod by pressing **Center Button**.
2. Scroll to Videos using the iPod **Click Wheel**, select with **Center Button**.
3. Scroll to Video Podcasts, select with **Center Button**.
4. Select **AMX Podcasts**
5. Scroll to appropriate video.
6. Select video with **Center Button**.

NOTE: Increase volume using click wheel (slide thumb clockwise to increase, counter clockwise to decrease).

Subscribing to AMX Podcast

2

1. Browse to <http://podcast.amx.com/>.
2. Click the **Podcast Channel** to which you would like to subscribe.
3. iTunes is launched, and the Podcast subscription is established.
4. Videos and audio for that channel are downloaded to iTunes (your local machine).

Synching Your iPod to iTunes

3

1. **Connect** your iPod to the USB port using included white cable.
2. The iPod Set Up Assistant will display.
3. **Name** your iPod.
4. Select **Sync songs and video to my iPod**.
5. Click **OK**, and subscribed Podcast will automatically be loaded to your iPod.

Preparing iPod to Broadcast to Projector/TV

4

By default the TV Off is selected meaning that videos and slide shows will only display on your iPod. You can set your iPod to prompt you regarding broadcasting content to projector/TV.

1. Select **Videos**.
2. Select **Video Settings**.
3. Select **TV Out** and it will switch to **Ask**. This option will ask you if you want to Play Video/Photos to TV or not when content is selected.

Playing Video on External Monitor or Projector

5

1. Plug **Video Cable** with RCA outputs into iPod.
2. Plug **RCA Outputs** into Video inputs on projector/monitor.
3. Select appropriate **video source** on projector/monitor.
4. Select **Videos** on your iPod.
5. Locate video using the **Click Wheel**, and press **Play/Pause button**.
6. Select **TV Out** when prompted.
7. Thumbnail of video will display, and you should see video on screen.

Quick Start & Reference Guide

Converting PowerPoint to iPod Slide Show

6

1. Open your **PowerPoint Presentation**, and Click File.
3. Select **Save As**.
4. In the Save as File Type select **JPEG File Interchange Format (*.jpg)**
5. Click **Save**.
6. Click **Every Slide**.
7. Location confirmation is displayed, click **OK**.

NOTE: This process creates a folder with a series of images, flat pictures of your slides. Those images are what is stored and displayed on your iPod, and are not editable unless you go back to PowerPoint and recreate.

Synching your PowerPoint Images to iPod

7

1. **Plug** in your iPod into PC USB port, and iTunes will launch.
2. Click **Photos** at the top of the screen.
3. Click **Sync Photos** checkbox.
4. Click **My Pictures** drop-down menu, and select **Choose Folder**.
5. Browse to your presentation folder (created from PowerPoint).
6. Click **OK**.
7. Click **Apply**, and the PowerPoint images will be copied to your iPod.

Broadcasting PowerPoint Images to Projector

8

1. Plug **Video Cable** with RCA outputs into iPod.
2. Plug **RCA Outputs** into Video inputs on projector/monitor.
3. Set proper **Video Input** on projector/television.
4. On iPod, select **Photos**.
5. Select **Slide Show Settings**.
6. Select **Time Per Slide**.
7. Select **Manual** (this enables you to manual control your presentation).
8. Press **Menu** twice to go back to Photos menu.
9. Select **Photo Library**.
10. Press **Play/Pause button**.
11. Select **TV On** when prompted.
12. Thumb of first slide appears with forward and back arrows. You should now see the first slide on the projector/screen.

NOTE: Use iPod **Fast Forward button** to move forward a slide. Use iPod **Rewind Button** to move back a slide.

NOTE: You only have to do steps 2-4 the first time you play a presentation slide show.

Tip:

Be sure to flip the **Hold Switch**, on the top of the iPod, to deactivate controls during transport.
