

RMS Enterprise Hosted Cloud Service

RMS-ENT-CLOUD

(FG3004-41) RMS Enterprise Cloud Monthly Subscription Fee

(FG3004-KW) RMS Enterprise Cloud Hosted Service

Overview

RMS-ENT-CLOUD / RMS Enterprise Hosted Cloud Service is a cloud-based software application for IT and AV managers that provides remote management capabilities for AV assets and building systems. The software features a user-friendly dashboard that makes it easy to centralize the management and monitoring of AV equipment, lights, HVAC and other building functions. This allows users to solve technology issues before they become problems, such as identifying displays before a bulb burns out or receiving immediate notification when a device goes offline.

RMS-ENT-CLOUD is a subscription-based service that allows users to take advantage of all the benefits and features of the RMS application without installing and managing the physical server infrastructure. RMS Enterprise Hosted Cloud Service integrates with RPM software to facilitate a total cloud based development, integration, and management software suite. Since it's cloud-based, there's no maintenance required, it's easy to acquire and has virtually no startup time or up-front cost.

RMS-ENT-CLOUD includes a long list of standard and customizable reports, and gives you the ability to tailor your experience with a fully-configurable dashboard with easy-to-use widgets.

Common Applications

- RMS-ENT-CLOUD is a robust solution for corporate or government IT and AV managers to centralize the monitoring and management of AV devices and building systems across their facilities worldwide, without installing and managing the physical server infrastructure.
- RMS-ENT-CLOUD is ideal for support staff at higher education institutions for managing classroom AV technology from a cloud-based solution
- RMS-ENT-CLOUD is perfect for small companies with a limited number of meeting spaces who want to remotely monitor and maintain their AV systems from the cloud

Features

- **Monitor and Maintain** – Minimize help desk calls and simplify troubleshooting by centrally managing AV systems just like IT systems
- **Reports and Dashboards** – RMS includes the industry’s most versatile set of configurable reports and dashboards, allowing organizations to customize the performance metrics they want to view, when they want to view them
- **Easy Acquisition with No Startup Time Or Costs** – Provides the fastest and easiest path to monitoring and management
- **Virtually Maintenance Free** – AMX handles the software maintenance, freeing your valuable support resources for other activities
- **Pricing As a Monthly Service** – Eliminates up-front costs for purchasing and integrating the software
- **Seamless Integration with RPM** – Makes it simple to add RMS to all your installations
- **Reduce Energy Costs** by automatically returning equipment to its lowest energy usage state upon the meeting's end, or by remotely shutting down equipment at the end of the day

Specifications

CONTROL SYSTEM REQUIREMENTS	
RMS Enterprise Cloud supports the following NI Central Controllers and Enova DVX/DGX Switchers with at least 64GB RAM:	NX-1200 NX-2200 NX-3200 NX-4200 NI-3101-SIG NI-2100 / NI-3100 / NI-4100 NI-700 / NI-900 Enova DVX-2150HD / DVX-2155HD Enova DVX-3150HD / DVX-3155HD Enova DVX-2100HD Enova DGX16 / 32

About AMX by HARMAN

Founded in 1982 and acquired by HARMAN in 2014, AMX® is dedicated to providing AV solutions for an IT World. AMX solves the complexity of managing technology with reliable, consistent and scalable systems comprising control, video switching and distribution, digital signage and technology management. AMX systems are deployed worldwide in conference rooms, classrooms, network operation/command centers, homes, hotels, entertainment venues and broadcast facilities, among others. AMX is part of the HARMAN Professional Group, the only total audio, video, lighting, and control vendor in the professional AV market. HARMAN designs, manufactures and markets premier audio, video, infotainment and integrated control solutions for the automotive, consumer and professional markets. Revised 11.5.14. ©2014 Harman.
