

LARGE CONFERENCE ROOM SYSTEM DIAGRAM

BSS DCP-555 Digital Conferencing Processor

This audio processor designed specifically for conferencing applications provides multiple connectivity options, acoustic echo cancellation, and more. In this application, the DCP-555 provides microphone connectivity and optimization, automixing of microphones and room audio, acoustic echo cancellation, USB connectivity for web conferencing, and line output for in-room speakers.

AMX Incite All-in-One Presentation Switcher

This integrated presentation switcher provides video switching with transitions, BSS audio signal processing, Crown DriveCore amplification, and AMX NetLinx room control. In this application, Incite provides source audio and video switching, with seamless video transitions between sources. Incite also drives in-room audio, leveraging the built-in amplifier with HARMAN's proprietary DriveCore technology.

AMX Acendo Core Collaboration System

This meeting place collaboration system includes web conferencing, document viewing, and wireless screen sharing in an easy-to-use platform. In this application, Acendo Core provides an easy method for meeting attendees to begin a web conference, wirelessly share content from multiple devices at once, and view presentation materials using the built-in document viewers.
